

Mayan God Discovered!

Kawaii has been discovered

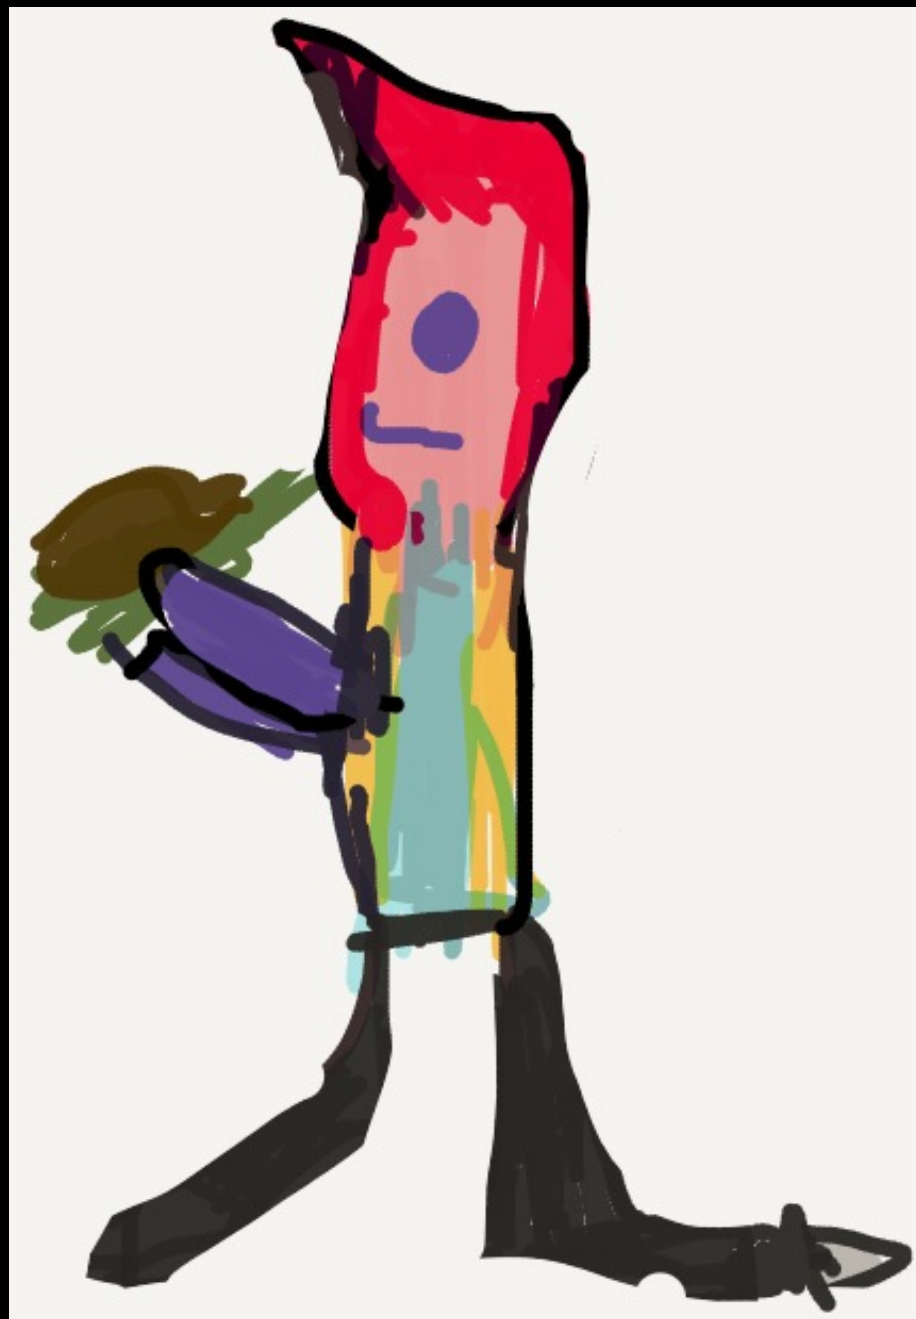

Kawaili, who is the God of moist ground, has been discovered. The Mayans showed great respect to this God and did human sacrifices to her. She was known as the second most important God.

Kawaii holds
grass and shows
that maize will
always be
important.

Her colourful cloths show
that she is a nice God and
helps farmers with there
crops. Priests are good
friends with this God
because she helps with the
priests dinner.

B - a good understanding of the beliefs of the Maya
BI - can you explain the appearance of the god that you have created.

This is kawaii
