6th March 2017

Dear Parents

British Science Week 10th - 19th March 2017

British Science Week is an annual event to celebrate the best of British science, technology, engineering and maths. At school during this week the children will be participating in a range of exciting science-based activities including making their own toothpaste, finding out more about the magic of magnets and creating superhero slime.

To help us celebrate this event we would like to invite parents in to school on Friday 17th March after school has finished at 3.20pm. The children will then share the work they have completed in class during the week and you will be able to see photos/videos of their investigative work.

If you are unable to come into school on this afternoon look out for updates on the class pages of the school website to see what each year group got up to.

We look forward to sharing our fun findings with you.

Yours sincerely

Mrs Ruck
