

Dear Parents/Carers,

The British weather continues to surprise us... this time with a heat weather warning!

I would like to update you on our precautions for the next week, where we anticipate that the weather is going to be even hotter.

We will monitor the weather warnings day by day and communicate with you as necessary.

This letter relates to **MONDAY 18th JULY & TUESDAY 19th JULY**

I can confirm on these two days, we are implementing the following precautions to ensure students can remain as cool as possible in school:

- We are strongly recommending that students wear their school P.E kit for these two days.
- If students do not want to wear their P.E. kits, they will be expected to wear normal school uniform.
- Classrooms will be well ventilated.
- Pupils will be encouraged to use shaded areas on school site during breaks and lunchtime and avoid vigorous exercise.
- Staff are encouraging students to drink throughout the lessons.
- Students can bring a hat / sunglasses to school (these cannot be worn inside)

These solutions are due to the extreme weather precaution notice that we have been told to expect from Sunday 17th July to Tuesday 19th July only and are being put in place to support our students in school.

If these arrangements are to be extended, we will inform all parents 24 hours in advance.

Kind regards

For and on behalf of Lincoln Anglican Academy Trust
